

Mobile cooking!

Mobilcook is bang on trend and enjoying spectacular growth in the take-away sector. **Mobilcook** stays tuned to the current street food requirements ensuring live preparation of tasty, easy-to-eat and healthy food right before the customer's eyes, served up instantly with a smile.

The concept

Mobilcook is a mobile, modular and customizable professional kitchen. Mobilcook means you can go to the customer, bring the cooking closer, at the ideal time and select just the type of cooking you want.

Mobilcook was designed to offer a host of layout possibilities both inside and outside: street food, markets, sports and cultural events, shows, mass catering, open-air activities, meetings of associations, themed evenings or even private catering. **Mobilcook** offers 3 x dimensions with the same trolley to fit the available space.

Mobilcook is an all-round solution made up of a basic module that can be fitted out at will with preparation, cooking, temperature holding, hygiene equipment and accessories specific to the type of cuisine desired, and a magnetic support with a printed artwork of the concept. The set can be assembled in less than 10 minutes.

Mobilcook allows for a whole range of cooking activities. It is ideal for preparing burgers, pizzas, pancakes, pasta, paella, couscous, mussels and chips, soups or any traditional cooking.

Advantages

1 / Mobility

The basic and compact module is easy to handle. It fits into a standard utility vehicle. The concept is set up or folded away in few minutes.

2 / Modular

Mobilcook allows for a whole host of cooking activities which can be changed from one day to another. It incorporates all the electric or gas cooking equipment available on the market. In addition to its ergonomic preparation space, **Mobilcook** boasts an extensive storage capacity in the stainless-steel unit.

3 / Customization

The back tarpaulin and magnetic frontage holder can be customized. These eye-catching visuals can be changed over allowing for optimum customer communication according to the event.
